

A fond farewell to a little champion

5 March 2016

Oliver Climas spent almost a year at the Women's and Children's Hospital and in that time captured the hearts of many staff and volunteers.

In March he was able to return home, much to the joy of his family including mum Nadine O'Keefe.

Oliver has Pearson Syndrome, a rare mitochondrial disorder. Staff of the Women's and Children's Health Network wish Oliver and his family all the best in their next chapter at home.
